Bani Amin

Full−Stack Web Developer at Softifi

Summary

Assalamu Alaikum,

I'm Bani Amin. Love myself I do. Not everything, but I love the good as well as the bad. I love my crazy lifestyle, and I love my hard discipline. I love my freedom of speech and the way my eyes get dark when I'm tired. I love that I have learned to trust people with my heart, even if it will get broken. I am proud of everything that I am and will become. The biggest competition is myself. I am not looking to follow others or pull them down. I'm planning to test my own boundaries. I respect everybody, but at the same time, I carry myself with an aura that demands respect, too. I always invest my own money in the companies that I create. I don't believe in the whole thing of just using other people's money. I don't think that's right. I'm not going to ask other people to invest in something if I'm not prepared to do so myself.

By the way,
If I am walking with two other men, each of them will serve as my teacher. I will pick out the good points of the one and imitate them, and the bad points of the other and correct them in myself.

Thank You.
